Subject: Re: Extension request for Clean Copy submittal for Willow Creek Water Monitoring Change

That should be okay. Your request for the extension to February 14, 2003 is hereby approved. We look forward to getting the clean copies.

Daron,

I apologize for the last minute extension request, but I didn't know until about 30 minutes ago that Eric Petersen wouldn't be able to provide me with sufficient copies of the hydrology report to submit to the Division. If I could have got them today I was going to run the clean copies down to the Price Field Office.

However, since PMC is waiting on their consultant to provide the report, we would like to have until February 14 for the clean copy submission.

Thanks,

Johnny
